

# V-PRO<sup>®</sup> PROTECTION BOARD

**DESIGNED FOR PROTECTION,  
ENGINEERED TO LAST.**

## PROTECTION BOARD FEATURES

V-PRO® Protection Board is durable, impact-resistant, and waterproof, providing robust protection for various surfaces. It features a non-slip coating for added safety and is made from recycled juice box and milk carton stock, promoting sustainability.

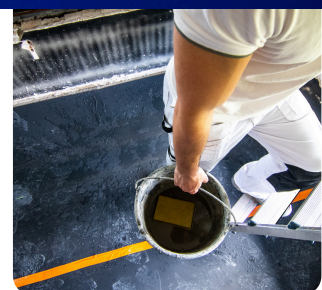

Easy to install, it lays flat and can be secured with any tape, without additional fixing. Perfect for long-term use on laminate, parquet, wood, PVC, and carpet floors. Its eco-friendly, reusable design ensures efficient, responsible surface protection. Trusted by leading companies worldwide, it covers over 600 million square feet annually.

150 sq.ft | 24.6-inch x 73.5-feet | ± 9 LBS

### Features:

- High Durability
- Liquid Proof
- Impact Resistance
- Anti Slip Coating
- Smooth Application
- Sustainable Solution

## V-PRO®'s unique formula

# Professional Waste Solution

**Business with a mission**

*Mission: Zero Paper Waste*

V-PRO's unique concept involves globally collecting misprints and outflow streams directly from manufacturing plants to upcycle laminated paper, like juice box packaging and milk cartons. By focusing on waste prevention, V-PRO has integrated a strong waste hierarchy over the years. This has led to the creation of multiple companies within the Verbo Group, such as IPT (for paper) and IPT Recycling (for plastic), that prioritize waste minimization and recycling. Together, they process over 200,000,000 lbs of waste annually.

V-PRO® is trusted by industry-leading companies in 25 countries, with our global presence continuing to expand. We work closely with our sourcing and distributors partners around the world. Are you curious in learning more about our distributors or products?

**Feel free to contact us at any time!**

## Did you know?

Did you know that for the first decade of its existing V-PRO® Protection Board was used without the gray coating? It featured only the colorful juice boxes and milk cartons, creating a vibrant and colourful experience on every jobsite!
